INTEGRATION OF SUSTAINABILITY RISKS IN THE REMUNERATION POLICY

The Allianz Group Policy for Remuneration is mandatory within the Allianz Group and all operating entities within Allianz Group are requested to implement the policy appropriately. The Allianz Group Policy for Remuneration addresses the integration of sustainability risks in a number of ways.

1. **Target setting principles:** Selected key performance indicators form the basis of the financial and operational targets for the variable compensation. These targets shall include, where appropriate ESG-related performance indicators and shall be designed to avoid excessive taking of ESG risks.
2. **Target setting process:** The relevant sustainability targets of the operating entities form part of the strategic and planning dialog. The key outcomes of the annual planning dialog process include the overall target letter for the CEOs of the operating entities. This includes sustainability content and the plan values of operating entities, including for sustainability KPIs, which form the quantitative targets for the operating entities CEOs for the coming year.
3. **Malus regulation:** Variable remuneration components may not be paid, or payment may be restricted, in the case of a breach of risk limits or a compliance breach. In this context the Allianz Standard for Reputational Risk and Issues Management and the ESG Functional Rule for Investments will be taken in account. These two internal corporate documents govern the management of ESG risks for investment transactions. For more details on ESG risk management see “disclosure under article 3” and [Sustainability Integration Framework](#).

For more details on the Allianz remuneration system, see [here](#).

This statement is updated on a regular basis.

Allianz is a global leader in insurance and financial services provision. It is present in over 70 countries, employing more than 157.000 people serving 125 million* customers. Allianz is the no. 1 insurance brand in the 2024 Interbrand Global Brands Ranking and has been recognized as a sustainable insurer by the Dow Jones Sustainability Index 2024.
